

Industry	H5 is an information retrieval firm that provides specialized search, review, and analysis services to the legal industry.
Founded	August 1999
Headquarters	71 Stevenson Street, San Francisco, CA 94105
Mission	H5's mission is to help law firms and corporations solve the complex challenges of search, review, and analysis associated with all aspects of litigation, investigations, preservation, and litigation readiness, while achieving efficiencies and significantly reducing costs.
Overview	<p>H5 advises on and implements discovery and document review strategies for legal matters. H5's broad range of services helps clients achieve financial, strategic, and practical advantages at all stages of the lifecycle of a matter, whatever its size or type.</p> <p>H5 addresses clients' complex information retrieval challenges by combining professional services, advanced proprietary technologies, and expertise in linguistics, statistics, computer science, law, research, information technology, process engineering, and e-discovery. Through this approach, H5 is able to capture litigators' relevance judgments and automate the assessment of documents to find the information clients need.</p> <p>Validated by independent evaluations, H5's systematic, repeatable approach delivers results that are unparalleled in speed, accuracy, and cost-effectiveness.</p>
History	H5 has major offices in San Francisco and New York. H5 has delivered its successful information retrieval services to a wide variety of clients, including Fortune 500 corporations, prominent law firms, and government organizations.
Funding	H5 has secured \$36 million in funding from leading venture funds, including Draper Fisher Jurvetson, Institutional Venture Partners, and WaldenVC.
