

H5

INFORMED, EARLY STRATEGIC DECISIONS

H5 Key Document IdentificationSM

H5 Key Document IdentificationSM combines linguistic expertise, proven search algorithms and processes, and proprietary technology to quickly and accurately deliver key documents mined from an unstructured data set.

1

Fast Moving Case

Client needed to quickly establish key facts and strategy in a contract breach lawsuit. They also wanted to find evidence to support counterclaims.

2

Targeted Search

Client briefed H5 experts on case and priority issues. H5 developed targeted searches for 9 issues to rapidly find important documents using powerful H5 technology platform.

4

Earlier Strategic Decision

The client focused its review on the key documents H5 surfaced to arrive at their strategy earlier than with manual review.

3

4 Weeks vs. 25 Weeks

In four weeks the H5 found 1,685 key documents in a 721K data set. Manual review was estimated at up to 25 weeks.

5

Outcome

Counsel was well positioned with nuanced fact narratives for early settlement negotiations.
